

# Planning Grid - Year 6 - Autumn 1 2018

## PSHE

- New beginnings – have opportunities to appreciate similarities and differences between each other.
- Build on their capacity for empathy and awareness.
- Mind Up: Children will be learning about mindfulness and positive higher-level thinking.

## PE

- Swimming is every Thursday for Elm class and Friday for Maple class at Dulwich Leisure Centre this term.
- PE with Mr Rochford every Tuesday.

## Spanish

- Children will resume lessons with Pablo, where they will improve their understanding of Spanish, as well as collecting new vocabulary and orally communicating.

## History

### World War 2

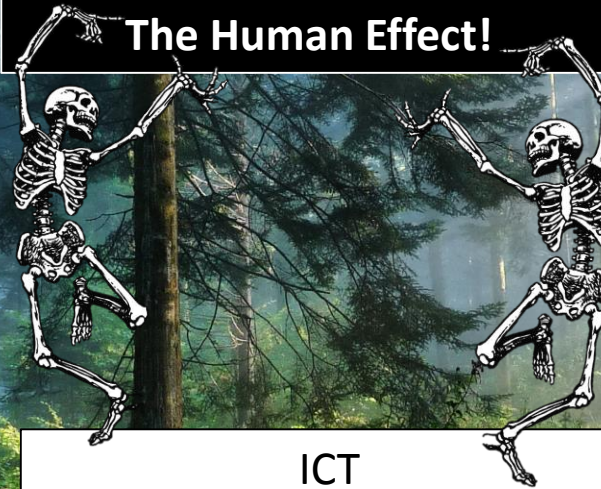

Year 6 will be immersing themselves in the historical period that none of us can forget...World War 2. Through visits, theatrical teaching, research and visits, children will explore all the main aspects of the war from the Blitz and Evacuation to The Holocaust.

Children will be using literacy, art and research skills to try to understand what a huge time this was for our world. We are very excited to share all that we know!

## Literacy

- King Kong – Using film and book stimulus by Antony Browne, children will be writing newspaper articles, non chronological reports and narrative writing to kick start the pupils' imagination.
- Guided reading will be interlinked with this exciting story.
- The children will also be studying a variety of different poems linked to the topic of our natural environment.

## The Human Effect!

## ICT

- Children will learn to understand computer networks including the internet.
- They will use logical reasoning to explain simple algorithms.
- Design their own apps.
- Use search technologies effectively to research and explore the wonderful technological world we live in!

## Numeracy

- Following Southwark planning
- Children will be working their way through all the key skills in mathematics starting with place value, number facts and calculation, followed by shape and space and then moving through to measurement.
- Daily mental maths and calculation work will take place in addition to the numeracy lesson.

## Art and Design/DT

- Make Anderson Shelters related to our WW2 topic. This will be a homework assignment.
- We will be learning about the art of Henry Moore and creating work inspired by his drawings of underground shelters during WW2.

## Science

Children are beginning to study the human body! Looking at bones, muscles and vessels, they will feel like real scientists. Becoming masters of their own bodies and even touching on how animals are different or similar to us.

With a visit planned after their exams and we hope that they will find a great passion for this biology based unit.
