Dear junior designers,

As you may be aware, I have been manager of Dulwich Hamlet FC for over 10 years. To mark this achievement and celebrate all the fun I've had during this time, we will be holding a special match (called a testimonial) on Sunday 26th April 2020. The match will be between a team managed by me and a team managed by one of my best mates - Rio Ferdinand. Not only do I want my team to beat Rio's, I want them to look good as they do it. That is where you come in!

I would like to give you, the young people of Southwark and surrounding boroughs, the opportunity to design the kit that my team will wear. This competition is open to anyone under the age of 18 who is currently attending a primary school, secondary school or youth organisation.

The kit can be any design you like - it must look stylish and I'd really like it to incorporate some parts of the kits that Dulwich Hamlet teams have worn in the past. Obviously, it should include the famous pink and blue! You should think about the whole kit including the shorts and socks too!

All the entries will be judged by me and a trusted team from Dulwich Hamlet. The winner will be chosen and their kit will be made into the kit worn by my team at my testimonial match. I will also invite the winner to attend the match and lead my team out. You will also be given your very own version of your shirt design.

If you think this is something you can help me with - get designing!

I need all designs to be sent to me by **Friday 20th March at 7pm**. You'll need to ask one of your parents, carers or teachers to email a scanned copy or picture of your design to me at schools.dhfc@gmail.com.

More information about this competition can be found on the Dulwich Hamlet FC website. Ask your parents or carers to have a look at the full rules and what you need to do to enter. There is also a template you might want to download and use to help you.

I can't wait to see all of designs. Thank you in advance for all your efforts and wonderful ideas!

Best wishes,

Gavin Rose
