Mindfulness/ Wellbeing	<p>Ring a bell or make a lasting noise with another instrument or method. Listen very carefully to the fading sound until you are sure you can no longer hear it.</p>	<p>Lie on your back outside and close your eyes so you can use all of your senses except for sight. Notice the feel of the air, the feel of the ground, the sounds that surround you and any smells that are present.</p>	<p>Find something with a strong and pleasant scent e.g. lavender or orange peel and place it close to your nose. Try to concentrate just on the smell for a whole minute.</p>	<p>Take a walk and concentrate on the act of walking. What movements does each leg perform in each stride? Which part of your foot hits the ground first? What does the ground feel like underneath your shoe/foot?</p>	<p>Listen really carefully to what someone else is saying. Stop doing anything else and give them your complete attention. If you think of things you wish to say, let the speaker finish before you add your thoughts.</p>
