

# Year 1: Spring 2

## Seasonal Changes

### Vocabulary

Sun  
Day length  
Temperature  
Seasons  
Weather  
Spring  
Summer  
Autumn  
Winter  
Sunrise  
Sunset

### What I already know:

Reception

- Identify what is hot and cold
- Identify and label weather words e.g. sun, rain snow
- Identify the 4 seasons

### What I will learn now:

#### Year 1

- Identify seasonal/daily weather patterns in the UK
- Identify how animals adapt to a hot or cold place.
- Explain how to pack for a hot or cold holiday

#### Key facts

- There are four seasons in a year – Spring, Summer, Autumn and Winter.
- Four seasons are formed in one Year due to the earth travelling around the sun.
- In spring the weather usually turns warmer, trees begin to grow their leaves, plants start to flower and young animals such as chicks and lambs are born.
- In the U.K Summer has the longest days and the highest temperatures.
- Autumn is the time when deciduous trees shed their leaves.
- In the U.K Winter is the season with the shortest days and the lowest temperatures.

### What I will learn next:

Year 2

- Describe a place outside Europe using geographical words.
- Describe the features of a place, using words like beach, coast, forest, hill, mountain.
- Name the continents of the world and find them in an atlas.
