

# Dog Kennel Hill Primary School - Science

**Topic: Animals including humans**

**Year: 2**

**Strand: Biology**

### What should I already know?

- There are five types of **vertebrates** (mammals, fish, reptiles, amphibians, birds)
- **Vertebrates** are animals that have a **backbone**.
- Some animals are suitable to be kept as pets but others are not.
- Some animals give birth to live young but others lay eggs.
- Doctors and nurses give us **medicine** when we are poorly.

### What will I know by the end of the unit?

What is a **life cycle**?

A **life cycle** is the series of changes that an animal or plant passes through from the beginning of its life until its death.

Animals, including humans, have **offspring** which grow into adults.

What do all animals need to **survive**?

- All animals need water, air and food to **survive**.

What do humans need to be **healthy**?

- To keep **healthy**, humans need:
- to eat a **balanced diet** and **healthy** food
- some **exercise** to keep their **muscles** and **bones healthy**
- to take **medicines** that are given by doctors and nurses when feeling poorly
- to keep good **hygiene** by washing regularly, having clean clothes, brushing teeth and hair.
