

# River Hill Federation Provision for Remote Education

Date of issue	September 2023	Date of next review	September 2024
Person responsible	for updating this plan	Barbara Ghezzi,	Head of School

# Remote education provision: information for parents

This information provides clarity and transparency to pupils and parents or carers about what to expect from remote education if there are local restrictions announced where entire cohorts (or bubbles) are required to remain at home.

## What is remote education?

AALIG	is remote education?
The	re are different definitions out there, but these are the most common ones:
	Remote education: a broad term encompassing any learning that happens outside of the
	classroom, with the teacher not present in the same location as the pupils.
	<u>Digital remote education:</u> often known as online learning, this is remote learning
	delivered through digital technologies.
	Blended learning: a mix of face-to-face and remote methods. An example would
_	be the 'flipped classroom', where main input happens remotely (for example through
	video), whilepractice and tutoring happen in class.
	Synchronous education: this is live;
	Asynchronous education: is when the material is prepared by the teacher and
	accessed by the pupil at a later date.
The	remote curriculum: what is taught to pupils at home
Ар	upil's first day or two of being educated remotely might look different from our standard
app	proach, while we take all necessary actions to prepare for a longer period of remote
tea	ching.
	at should my child expect from immediate remote education in the firstday or two of
pup	oils being sent home?
	All parents contacted via email or SMS message prior to the start of remote
	education, toinform them that Learning Packs will be emailed to them.
	Differentiated Home Learning Packs emailed to all parents prior to the start of a
	period ofremote education.
	Parents contacted and given the option of collecting a paper copy of the
	HomeLearning Packs from Day 1 onwards
	Home Learning Packs to include an exercise book (may be the homework
	book), apencil and reading book/s.
	During the first morning of remote learning, your child's teacher will organise
	anoverview video where they will explain exactly how learning will work, set out
	<ul> <li>expectations of your child's involvement and remind children how work will be</li> </ul>
	o organised.
	During the 'overview video' the teacher will explain the timetable for the rest of the
	day and how the children can access extra support if they need it when
	working independently.
	An online protocol will be distributed to all pupils and parents, to ensure
	that expectations of children, adults at home, and school are <del>all</del> clear.
	Teachers will discuss remote learning rules to ensure that all remote learning is carried out
	in asupportive and caring manner as it is in their "real" classroom.
	A full weekly timetable setting out each day of learning will be provided by day 2
Ш	of anyself-isolation period.
	5. 5, 55 10010111 p 0110 01

# Following the first few days of remote education, will my child be taughtbroadly the same curriculum as they would if they were in school?

	Yes, we will teach the same curriculum remotely as we do in school wherever possible and
	appropriate. However, we may need to make some adaptations in some subjects.
	For example, where a task requires lots of discussion, the teacher may make amendments
	so thatit is suitable for remote learning.
П	PF learning tasks will need to be flexible to allow for children to access

PE learning tasks will need to be flexible to allow for children to access themdepending on their individual circumstances.

#### Remote teaching and study time each day

## How long can I expect work set by the school to take my child each day?

We expect that remote education (teaching and independent work combined) will take pupils broadly the same amount of time as children in school. The majority of the timetable for the day willmatch that of children in school and individual support will be available during normal school hours. If children are unable to complete the learning tasks they are set, then they (or parent/carers on their behalf) should discuss this with the class teacher. This is a blended approach with a mixture of 'live sessions', pre-recorded sessions and assignment-based lessons. The DfE states that schools should provide a minimum of 3 hours home learning for Key Stage 1 children and 4 hours for Key Stage 2 children.

Early Years and Primary school-aged pupils	Number of hours
	Pre- recorded overview video (includes English
EYF\$	input)Pre-recorded Phonics video
Nursery and	Maths
Reception	Reading/Stori
	es
	Learning though play
	activities30 min Music lesson
	weekly
	Pre-recoded overview
Key Stage 1	video1hr English daily
Years 1, 2	1hr Maths daily
	1 hr Science per week
	30 mins to 1 hour of Foundation Subjects 3 x per
	week30 min Phonics/ Reading
	30 min PE/exercise
	Optional Mindfulness
	activities40 min Music

	daily

<b>Key Stage 2</b> Year 3, 4, 5 & 6	Pre- recoded overview video 1hr English daily 1 hr Science per week (year 3 & 4) 1 hrs Science per week (5 & 6) 1 hr Foundation Subjects 2-3 x per week30 mins Reading daily 30 min Spelling 2-3 x per week30 min PE/exercise 40 min Music lesson weekly Storytime – 2 x per week Optional mindfulness activities
-------------------------------------	---

# **Accessing remote education**

How w	ill my child access any online remote education you are providing?
	Children will access learning from private pages on our website. This will include a
	timetable with links to digital learning.
	School is currently using Microsoft Teams for a daily live 'Teacher Support' session
	1x per day for all year groups.
	Children will be able to ask questions and request support during the day using
	Teams chat and in small groups, some children receive additional live teaching to
	help their learning
	Teachers also offer a daily recorded overview video to explain the day's learning
	Pre-recorded Maths lesson (using various resources, including Oak Academy)
	Pre-recorded English lessons from the year group teachers
	Pre-recorded Phonics lessons for year 1
	We use Read Write Inc phonic videos to teach phonics remotely.
	Pre-recorded Maths and Phonics sessions for Nursery
	Pre-recorded phonics session for Reception
If my c	hild does not have digital or online access at home, how will you support them to access
	education?
	cognise that some pupils may not have suitable online access at home. We take the
	ngsteps to support those pupils to access remote education:
	If your child does not have access to a laptop or a suitable device then we may
	be able to lend them a laptop. Parents and carers should contact the DKH office
	via: of- fice@dkh.southwark.sch.uk or call the school office (0207 274 1829) RPS
	office via: of-fice@rotherhithe.southwark.sch.uk or call the school office (0207 237
	1586)for further in- formation
	Sometimes additional data allowances may be available to support home
	learning from internet providers or the local authority. We will endeavour to support
	families to access any support available at the time.
	For any pupils who do not have any access to the internet, printed materials will be
	prepared and can be collected from school or delivered if required.
	Learning packs need to be collected at the start of a period of self-isolation.
	During a longer lockdown period or if a child has been directed to shield this will
	be on a fort- nightly basis.
Haven	
_	ill my child be taught remotely?  We use a combination of the following approaches to teach pupils remotely:
	Live teaching (online support sessions) from your child's class or year group
	teacher
	Recorded lessons, including Oak National Academy
	Pre-recorded video/audio recordings made by teachers – for some lessons pupils
	will view a pre-recorded video from a private link on our website
	Your child will continue to use the range of online tools that they are familiar with
	and use in school such as: Timestable Rock Stars, Learning with Parents, RWI
	Printed paper packs produced by teachers (includes learning activities and
	resources
	e.g. reading books, stationery)
	Our school website is also updated weekly with new resources to support online
_	Learning. (DKH: <a href="http://dkh.southwark.sch.uk/home-learning-resources">http://dkh.southwark.sch.uk/home-learning-resources</a> / RPS:

# **Engagement and feedback**

	at are your expectations for my child's engagement and the supportthat we as parents discretely are as parents
	Please expect that your child will be completing a usual day of learning from
	9:00am to3:30pm.  Parents and children have received an online learning protocol and will be remindedregularly about expectations of school, children and parents/carers on the first day of anyremote learning period.
	Please support your child to access the learning but do allow and expect them to complete some of their learning independently (depending on your child's age.)
We	expect that children will:
	"Arrive" or log in on time to all of their live Teams sessions Be dressed appropriately for learning Do their best to complete all independent learning tasks Request help through Teams if they are unsure of what to do, or how to do it Abide by the agreed remote learning rules and the remote learning contact
We	ask that parents and carers:
	Help children to log in to live learning
	Monitor children's safe access to the internet Report any problems accessing learning to the class teacher
	Set routines at home to support your child's education
	Ensure that children "arrive" or log in promptly each morning
	Monitor Microsoft Teams account and email for messages from your child's teacher
Hov	w will you check whether my child is engaging with their work and how will lbe informed if

# Additional support for pupils with particular needs

# How will you work with me to help my child who needs additional support fromadults at home to access remote education?

We recognise that some pupils, for example those with special educational needs and disabilities (SEND), may not be able to access remote education without support from adults at home.

care	acknowledge the difficulties this may place on families, and we will work with parents and rsto support those pupils in the following ways:  Teachers will differentiate tasks to suit your child's needs  Teachers will provide resources to support children's learning  Additional supports, examples and checklists may be provided  Where individual approaches are required, we will discuss these with you  Please contact our SENDCo at school if you would like to discuss the needs of your child, and how they will access remote learning.  We have provided parents with ideas on how to support their child at home – This includes links to websites providing high quality material to support a range of needs e.g. fine motorcontrol ideas, memory support, sensory circuits, social skill development ideas etc  We will provide online lessons using 'Specialist' platforms such as Oak Academy where these are supportive of pupils learning.
	When possible our speech and language therapist will provide remote speech andlanguage therapy for pupils.
Whe how	ote education for self-isolating pupils re individual pupils need to self-isolate, but the majority of their peer group remains in school, remote education is provided will likely differ from the approach for whole groups. This is due to challenges of teaching pupils both at home and in school.
-	child is not in school because they are self-isolating, how will their remoteeducation differ
	the approaches described above?  While live remote teaching is not possible while the class teacher is teaching their class, we willuse broadly the same approach as outlined above.
	We will ensure individual pupils self-isolating are taught a planned and well-sequenced curriculum with meaningful and ambitious work each day in a number of different subjects, including providing feedback.
	We will use online lessons such as those provided by on line resources such as
	OakAcademy, when these match the work being taught in class. The independent work provided will be broadly in line with the class work their peers areaccessing. Teachers will
	provide additional instructions through PowerPoints and slideshows to support the learning. Children can request additional support using Teams or email and adults in school willrespond to support when they are available.

# <u>Protocols for online learning</u>

# **Teachers**

	Teachers will ensure that they have a complex password to access Microsoft Teams. (Thismeans having a mixture of numbers, letters, capitals and possibly special characters.)
	Teachers will check that all the correct participants are present on all video calls they will
	startthe call with a register particularly if many users are involved on the call.
	Ensure settings are fixed so that other users on the call cannot record the
	conversationcovertly and turn off the private chat feature.
	Check the system's settings to ensure that other users cannot record calls. Also remind users
	atthe beginning that the call should not be recorded.
	Teachers must not share sensitive documents over video call e.g. Do not screen
	share personal data. Other users can click "print screen" and then have a copy of
	documents they may not be entitled to.
	Teachers will take control of the meeting Teams meetings. They will set the ground rules e.g.,
	making it clear there is to be no recording, setting rules on communication etiquette
	(such as asking children to raise their hand before speaking).
	When sending Teams links or if you need to send documents or work in advance or
	following a chat session, do ensure that (1) all users are blind copied (BCC) into the email
	and (2) avoid sending any sensitive data in those emails. If you need to send sensitive
	data to a specific individual, do re-check the email address before sending to check it
	is being sent to the correct recipient.
	Do not give out personal email addresses and numbers to users. Only school email
	ad-dresses should be provided.
	If you want to implement new software to interact with children, please discuss this
	with amember of the Senior Leadership Team.
	During video calls teachers should be in a neutral area where nothing personal or any-
	thingdeemed to be inappropriate can be seen or heard in the background.
	Teachers must dress appropriately for online calls at home.
	Video calls should be recorded and backed up elsewhere, so that if any issues were to
	arise, the video can be reviewed. You must inform parents the call will be recorded for
	safeguarding purposes in advance. These will be deleted in line with our data retention
	policies.
	1:1 contact with a child should be avoided unless a parent or other member of
	staff isavailable during the meeting.
	In the event that you need to telephone a parent, please take steps to withhold
	yournumber.
	If you find any contact made by parents or children inappropriate, report this to your
	linemanager.
	If you have any safeguarding concerns, please inform a Designated Safeguarding
	Lead as soon as practically possible.
D ~	
rar	<u>ents</u>
ont	es will halp facilitate online learning ansuring the following:

Parents will help facilitate online learning ensuring the following:
☐That the computer is placed in a neutral area without distractions.
Ensure that household members who may be seen during video calls are
appropriately dressed and use appropriate language.
Children and parents are not permitted to record video calls or share them with
others.

•	n, e.g., going to bed and rising at reasonable times, taking regular
exercise, lim	niting screen time, setting aside specific hours for schoolwork, etc.
3	child/ren can access a designated place in the home in which to
complete so	
	your child/ren stay up to date with their schoolwork as much as possible.

•	e etc.) when you are talking to your teacher online.
	you post online.
	Helpful • Inspiring • Necessary • Kind If not, don't post it!
•	de to all those who are supporting you.
-	and considerate to adults and siblings at home who might also be trying to work.
	ork area neat and tidy at the end of each day.

• Childline-forsupport

online, speak to an adult or report it immediately:

Ensure you use electronic devices responsibly and if you are concerned by something you see

- UK Safer Internet Centre to report and remove harmful online content
- CEOP-for advice on making a report about online abuse
- UK Safer Internet Centre advice for parents and carers

#### Data protection

When accessing personal data for remote learning purposes, all SLT will:

#### Explain:

- How they can access the data, such as on a secure cloud service or a server on the school's IT network
- **,** Which devices they should use to access the data

## Processing personal data

Staff members may need to collect and/or share personal data such as email address-es and telephone numbers with their year group team as part of the remote learning system. When emailing a group of parents from the teachers Microsoft email account the teacher will blind copy parents email addresses using the BCC function to avoid sharing personal data. Any data breaches that occur will be dealt with in line with the schools Data BreachPolicy.

#### **Keeping devices secure**

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- Keeping the device password-protected strong passwords are at least 8 characters, with a combination of upper and lower-case letters, numbers and special characters (e.g. asterisk or currency symbol)
- Ensuring the hard drive is encrypted this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device
- Making sure the device locks if left inactive for a period of time
- Not sharing the device among family or friends
- Installing antivirus and anti-spyware software
- Keeping operating systems up to date always install the latest updates

### Safeguarding

Live streamed sessions will be recorded to protect all parties. These recordings will be storedsafely and deleted in line with the school's date retention policy. Most teacher-delivered lessons will be pre-recorded. Increased activity online places children at greater risk so children will be taught regularly about how to keep safe online.

#### Timings and deadlines:

The mental well-being of both parent/carer and child is very important to us. We know there may be challenges when moving to remote learning. We ask everyone to do theirbest in supporting the learning the school is providing.

We expect parents/carers to continue to support their child's education at home. Microsoft365 (and paper activities) can be accessed to work within family schedules and the requirements of parents and siblings to use shared technology. We will try and work with all families to encourage children to engage throughout remote learning episodes. Microsoft activities can be completed by the child on the day, at a time suitable for the family.

Teachers will set deadlines for work to be uploaded or evidenced and we ask that parents encourage children to continually meet such deadlines so that children do not fall behind. If your child is at risk of falling behind, please contact the school.

As we work through remote and online learning together, it is likely that we will face challenges. We will continue to reflect upon practice and may make further modifications and enhancements to improve our offer.
